Figure 1: Flow diagram of sample used in analysis

Phase 1 participants: N=10305¹

- Excluded N=5151
  - Reserves: n=1588
  - Non-Driver: 663

Regular drivers: N=8154²

- Excluded N=3081 (Not responded at Phase 2)

Responders to Phase 2: N=5073

- Excluded N=53
  - No longer drive: n=24
  - Missing data on driving status at Phase 2: n=29

Final sample for analysis: N=5020

1 Includes 33 late responders
2 Paper on risky driving at phase 1 analyses a total of 8127 participants. However, 29 late responders (who were regulars and drive) have since been added to the data, and two participants were removed as they were found to be ineligible.
