

SUPPLEMENTARY FILE

The following search strategies with filters (humans) and limits (last 20 years), will be launched in PubMed database.

We have designed, together with a librarian, different search strategies aimed at a comprehensive approach to Nodding Syndrome in order to reach the proposed objectives.

Search strategy 1:

((("Nodding Syndrome"[Mesh]) OR "Nodding Syndrome") OR Nodding) OR ((NS[Title/Abstract] AND "Epilepsy"[Mesh]) OR ((NS[Title/Abstract] AND ("Onchocerca"[Mesh] OR "Onchocerca volvulus"[Mesh])))

Search strategy 2:

("Nodding Syndrome/diagnosis"[Mesh] OR "Nodding Syndrome/epidemiology"[Mesh] OR "Nodding Syndrome/etiology"[Mesh] OR "Nodding Syndrome/prevention and control"[Mesh] OR "Nodding Syndrome/statistics and numerical data"[Mesh] OR "Nodding Syndrome/therapy"[Mesh])

Search strategy 3:

("nodding syndrome") AND stigma

Search strategy 4:

"Nodding Syndrome") AND (care* OR family)
