

## Annex 2 – Data extraction form

## Data extraction form

Study Characteristics							
#	Author	Year	Title	Journal	Study Design	Objective	Data origin (original / sec.)
1							

Population							
#	Condition	Age (range, M, SD)	Age (subgroup)	Gender	N of groups	Overall n of participants	N per group
1							

Intervention											
#	Frequency and duration	Targeted (risk) behaviour	theory	Modality / procedure	N of components	Description of components (overall)	digital component (hardware)	digital component (software)	Execution (e.g. PE class, lunch breaks)	Participation of pedagogues	Participation of parents/ family
1											

Outcomes and Data Analysis											
#	N of measurements	Duration follow-up (in months)	N of outcomes (overall)	Outcome 1 (Domain)	Outcome 1 (Results)	...	comparator	Confounder variables	Matching (y/n)	Tests / analyses performed	
1											

Setting		
#	Country / region	Educational Institution (kindergarden, pre-school, elementary school, school...)
1		

Implications and Notes				
#	main finding	Practical implication	Recommendations for future research (only discussion and conclusion)	Critics, notes...
1
