Lees et al. Fetal alcohol spectrum disorder resources for educators working within primary school settings: A scoping review protocol. *BMJ Open*.

FASD resource scoping**Step 1.****a) Peer reviewed databases:**

Databases: PsycINFO, PubMed, Scopus, Web of Science, ERIC, Cochrane Library, MEDLINE, EMBASE, CINAHL

Search terms: (“fetal alcohol spectrum disorder” OR “fetal alcohol syndrome” OR “alcohol related neurodevelopmental disorder” OR “alcohol related birth defects” OR “prenatal alcohol exposure” OR “alcohol use during pregnancy”) AND (school OR “school based” OR teacher OR educator)

AND relevant resource key words:

- Screening or assessment tools: (screen OR “screening tool” OR assessment)
- Programs or interventions: (program OR intervention OR management)
- Previous reviews: (review OR “systematic review” OR “scoping review” OR “meta-analysis”)
- Guidelines: (guide OR guideline OR guidelines OR policy)
- Information-based resources (factsheet OR booklet OR “information sheet” OR video OR app OR application OR game OR gaming OR virtual reality OR interactive OR podcast)

b) Grey literature:

Websites: FASD Hub, NOFASD, HealthInfoNet, Australian federal, state and territory Department of Education and Department of Health websites, Education Services Australia, The National Organisation for FASD (UK), The National Organization on Fetal Alcohol Syndrome (USA), Children’s Healthcare Canada, The Provincial Outreach Program for Fetal Alcohol Spectrum Disorder

Search terms: Use full search terms where possible, but where the capacity of the website does not allow, reduce terms (e.g., “fetal alcohol spectrum disorder”)

AND relevant resource key words:

- Program, intervention, management, factsheet, information sheet, booklet, policy, video, game, gaming, virtual reality, app, application, interactive, podcast, guideline(s), guide, screen, screening tool, assessment

c) Google Advanced search:

Search terms: “fetal alcohol spectrum disorder” OR “fetal alcohol syndrome” OR “alcohol related neurodevelopmental disorder” OR “alcohol related birth defects” OR “prenatal alcohol exposure” OR “alcohol use during pregnancy”

AND relevant resource key words:

- Program, intervention, management, factsheet, information sheet, booklet, policy, video, game, gaming, virtual reality, app, application, interactive, podcast, guideline(s), guide, screen, screening tool, assessment

Review the first five pages (20 results per page) of Google search results.

d) App Stores

Stores: Apple App store (Australian store) and Google Play.

Search terms: Use full search terms where possible, but where the capacity of the app store does not allow, reduce terms (e.g., “fetal alcohol spectrum disorder”)

e) Podcast Streaming Services

Locations: Apple Podcasts app and Spotify

Search terms: Use full search terms where possible, but where the capacity of the streaming service does not allow, reduce terms (e.g., “fetal alcohol spectrum disorder”)

Step 2.

Peer reviewed databases: Import results into reference management software for screening.

Grey literature/Google/App stores/Streaming services: Import relevant results into an excel spreadsheet for further review.

Step 3.
