Interview guide

Objective: To identify job demands that health workers perceive as stressors.

Research questions:
What job characteristics cause stress in healthcare workers?
What organizational factors lead to stress in healthcare workers?

Semi-structured interview questions
• Can you tell me your age, work history, marital status, employment status?
• Please describe your working day.
• If you have experienced a stressful situation at work, describe it?
• In what situations do you experience stress at work?
• What factors cause stress in your workplace these days?
• Do you think there is anything else you want to say?
