Correction: OPTIMUM study protocol: an adaptive randomised controlled trial of a mixed whole-cell/acellular pertussis vaccine schedule

This article was previously published with an error.

Few errors on the visit schedule in figures 1 and 2 were fixed. Below changes have been made in figure 1:
1. Visit 2: 4 to <5 months (instead of weeks)
2. Visit 3: 6 to <7 months (instead of weeks)
3. Visit 6: 12 to <18 months (instead of weeks)
4. Visit 7: 18 to <19 months (instead of weeks)

Below changes have been made in figure 2:
1. Visit 2: it is clarified that the vaccines will be given by a local immunisation provider
2. Visit 3: 18 to <19 months (instead of weeks)
3. OFC: ≥12 to <18 months (instead of >12)
