Appendix 5 Results of AMSTAR 2 review quality assessment.

Supplementary File F. Results of AMSTAR 2 review quality assessment.

Legend: *RCT*: randomized controlled trials; *NRSI*: non-randomized studies of interventions; "+" : yes; "-" : no; "+/-" : partial yes; *NA**: Includes only RCT's; *NA***: No meta-analysis conducted

Item 1 Did the research questions and inclusion criteria for the review include the components of **PICO**?; *Item 2* Did the report of the review contain an explicit statement that the **review methods were established prior to** conduct of the review and did the report justify any significant deviations from the protocol?; *Item 3* Did the review authors **explain their selection of the study designs** for inclusion in the review?; *Item 4* Did the review authors use a **comprehensive literature search strategy**?; *Item 5* Did the review authors perform **study selection in duplicate**?; *Item 6* Did the review authors perform **data extraction in duplicate**?; *Item 7* Did the review authors provide a **list of excluded studies** and justify the exclusions?; *Item 8* Did the review authors **describe the included studies in adequate detail**?; *Item 9* Did the review authors use a **satisfactory technique for assessing the risk of bias (RoB)** in individual studies that were included in the review?; *Item 10* Did the review authors **report on the sources of funding** for the studies included in the review?; *Item 11* If meta-analysis was justified did the review authors use **appropriate methods** for statistical combination of results? (Only complete this item if meta-analysis of other data synthesis techniques were reported); *Item 12* If meta-analysis was performed did the review authors **assess the potential impact of RoB** in individual studies on the results of the meta-analysis or other evidence synthesis?; *Item 13* Did the review authors **account for RoB in individual studies when interpreting/ discussing the results** of the review?; *Item 14* Did the review authors provide a satisfactory **explanation for, and discussion of, any heterogeneity observed** in the results of the review?; *Item 15* If they performed quantitative synthesis did the review authors carry out an adequate **investigation of publication bias** (small study bias) and discuss its likely impact on the results of the review?; *Item 16* Did the review authors report any **potential sources of conflict of interest**, including any funding they received for conducting the review?;
