Supplementary file: Informed Consent

THE SCIENTIFIC ETHICS COMMITTEE SYSTEM

Standard consent form prepared by The Scientific Ethics Committee System, August 2016.
(S4) Informed consent for participation in a health science research project.

Research project title: Exercise-induced Cardiac Adapations in Rheumatoid Arthritis Patients During Interleukin-6 vs. Tumor Necrosis Factor Antibody Therapy (RABEX)

Statement from the participant:

I have received written and oral information, and I know enough about the purpose, method, benefits, and drawbacks to agree to participate. I understand that participation is voluntary, and I can withdraw my consent at any time without losing my current or future treatment rights.

I consent to participate in the research project and for my biological material to be taken for storage in a research biobank. I have received a copy of this consent form and a copy of the written information about the project for my own use.

Participant's name: ________________________________________________________

Date: _______________ Signature: ____________________________________________

If there are any new significant health information discovered about you during the research project, you will be informed. If you wish to decline information about any new significant health information that emerges during the research project, please mark here: _________ (put x)

Do you want to be informed about the research project's results and any potential consequences for you?

Yes ____ (put x) No ____ (put x)

Statement from the person providing information:

I declare that the participant has received oral and written information about the experiment.

In my opinion, sufficient information has been provided to make a decision about participation in the experiment.

Name of the person providing information: ______________________________________

Date: _______________ Signature: ____________________________________________

Project identification: (e.g., committee's project ID, EudraCT number, version number/date, or similar)

H-21010559 / EudraCT 2021-005287-21 / Version 2.0
