Correction: Pneumoconiosis combined with connective tissue disease in China: a cross-sectional study

This article was previously published with an error.

In Prevalence of pneumoconiosis combined with CTD section under Results the representation of the data was incomplete. This has now been rectified as shown below:

Among the 580 patients with pneumoconiosis, 80 individuals (13.8%) had CTD, including 28 with RA, 2 with SLE, 7 with SSc, 19 with pSS, 7 with AVV, 4 with IIM, 12 with unclassified connective tissue disease, and 1 with mixed connective tissue disease, which was a patient with SSc and IIM.
