Supplemental Figure 3. Summary findings of article review, data extraction and synthesis.

- **Identification:**
  - Articles identified by participants during DE (n = 39)

- **Screening:**
  - Articles retrieved (n = 39)
  - Articles screened and assessed for eligibility. (n = 39)
  - Reports excluded: (n = 23)
    - Publication year (n = 1)
    - Failed to pass screening questions (n = 22)
  - Other tools (n = 5)
    - Journal Articles (n = 8)
    - Position Statements (n = 3)

- **Included:**
  - Articles included in review (n = 16)
  - Concept Gaps (n = 25)
  - Concepts not Relevant to Standards (n = 5)
  - Redundant Concepts (n = 10)

- **Data Extraction:**
  - New Concepts (n = 10)

- **Synthesis:**
  - Amendments to standards (n = 43)
