The World Stroke Organization is making a Bill of Rights for stroke patients. It will help ensure that every patient has access to all elements of appropriate stroke care, to optimize their best chance of survival and recovery. The Stroke Bill of Rights was developed by a group of stroke survivors and caregivers from each region of the world. They need help to find out what are the most important things in their recovery. They will be very appreciated if you take 5-10 minutes to answer this survey. You need to finish all the 17 questions. This is for the patients, and the other is for the carers.
