

## **Appendix B: Study Details to be Included in Data Extraction Table**

### **General:**

- Record ID
- Title
- First author
- Year of publication
- Funding source
- Publication type

### **Methods & Data Collection:**

- Study design
- Objectives/research questions
- Sampling/recruitment procedures
- Data source for immunization data

### **Population:**

- Sample size
- Age range of children
- Time in care when assessment conducted
- Geographic location
- Setting of residence (e.g. residential care, foster care)

### **Intervention:**

- Vaccine(s) and doses assessed
- Barriers/supports (if assessed)

### **Comparators:**

- Comparison group? If yes, describe

### **Data Analysis & Results:**

- Standard used to determine full coverage (e.g. what is considered “completely immunized”)
- Type of analysis
- Outcomes: immunization status, association with care status (if it includes comparison group) including measures of effect
- Outcomes: supports, barriers (if assessed)
- Discussion: recommendations
- Conclusions of study

### **Other:**

- Author identified study limitations
- Other limitations
