adolescents' posts

turbohaler something although hospital
times, something, although, hospital
reliever, something, although, hospital
hate quite, really, never, steroids
put, feel, just, think, look
help, feel, just, think, look
getting, always, anyone, work
always, anyone, work
bad good, find, qvar
thing, blue, else deal, find, qvar
also, also, old, use, time, long
nurse, new, try, lot, use, time, long
medication, able, bit, etc, side, going
side, going, worse
taking, way, back, now, got effects
someone, day, seretide, life
seretide, life, keep, probably
meds, even, chest, see, used
makes year, year, many
attack, much, may
things, tell, better, years
rather, inhalers, using, want, prescription
inhalers, using, want, prescription
asthmatic, make, severe, prescription
embarrassed, understand

think taking going

adolescents' posts

really well, given, remind
antibiotics, watching
young, prescription
another, back
needed, help, know, may
make, bad, home, always, anyone, even
heard, hard, like, able, gets, give, away
recall, get, son, one, free
daughter, good, pill, neb, check
helpful, pred, feels, seen, box, old, put
primary, importance, problem, puffer, sorry
pills, number, little, change, school, plus
attention, long, getting
take got

asthma

parents' posts

now, year, long, attention
much, time, just, enough, interest
condition, attack, never, quite
medication, prescriptions

remember friends

actually, understand, right, around

start, teenager, decision
making, inhaler, teenager
child, run, sure, able, make, maybe
everyone, much, things, bit, back, want, something
things, hard, need, hope
inhalers, many, though, like, lot, use, year, help
teens, hospital, better, using, now, good
work, age, else, etc, see, may
just, get, long, first, way, bad
taking, know, really, luck, well
look, years, made, don't, mature, might, term
decisions, parents, still, also, medication
asthmatic, sometimes, adult, capacity
