

**Supplementary Table 2: Usage of Nicotine Replacement Therapy (NRT), Canadian Mental Health Association (CMHA) nurse counselling, and associated costs per PROMPT participant.**

	<b>Baseline (N=80)</b>	<b>Study End (N=34)</b>	<b>Loss to Follow-Up (N=46)</b>
Number of participants	56	32	24
NRT dispensed (by type) <sup>b</sup>	3/4 <sup>c</sup>	3	2
Mean NRT dose (mg)	3379	4265	1917
Range	658-7113	1029-7095	658-3250
Mean cost of NRT	\$657	\$842	\$348
Range	\$0-\$1560	\$150-\$1380	\$0-\$570
Mean visits to CMHA nurse	7	8	4
Range	1-12	3-12	1-5
Mean cost of nurse visits	\$657	\$186	\$115
Range	\$0-\$1560	\$98-\$246	\$18-\$131
Mean monthly follow-up	5	6	3
Range	1-6	6	1-5

<sup>b</sup>NRT available to participants in the study: gum, patch, lozenges, and inhaler.

<sup>c</sup>Participants at baseline were split, half using three forms of NRT, and the other half four (or all available) forms of NRT.
