Appendix: SPIRIT Figure outlining participant timeline

	Study period										
	Enrol	**Allocate**	**Post allocation**								**Close out**
Time		T0	T1	T2	T3	T4	T5	T6	T7	T8	T9
Weeks	-4 to 0	0	2	10	12	22	24	34	36	52	54
Practices											
Practice recruitment and consent	x										
Practice staff training session	x										
ALL participating people with T2D											
Eligibility screen	x										
Informed consent	x										
Attach baseline sensor (study staff)		x									
Allocation (after baseline sensor & assessments)		x									
Intervention participant procedures											
Download sensor data (study RN-CDE), RN-CDE education session, 1st GP CAV			x								
Attend clinic for sensor attachment (Reminder 1 week prior)				x		x		x			
Download sensor data and GP Clinic Assessment Visit (CAV)					x		x		x		
Attend clinic, attach sensor (study staff) (Reminder 1 week prior)										x	
Download of sensor data, GP review (Final CAV)											x
Control participant procedures											
RN-CDE education session			x								
Remind: Remove/post sensor, attend clinic 1st CAV			x								
GP review (CAV) (Reminder 1 week prior)			x		x		x		x		
Reminder attend clinic, attach sensor (study staff)										x	
Download of sensor data, GP review (Final CAV)											x
Assessments											
HbA1c (collect blood from patient)	x						x			x	
Questionnaire completions, clinic record downloads		x								x
