

Supplementary file 3. Guide Focus Group Discussion

15 minutes	Introduction and welcome <i>Names, roles. Goal of FGD: gain insight in parents' ideas in order to develop, evaluate and improve information material.</i>
30 minutes	Discussion about main questions <i>1. Where do you pay attention to when your child has fever? 2. Where do you get information about fever in children? 3. When do you search medical attention?</i>
15 minutes	Preparation example cases <i>1. Baby 3 months, cough since 5 days, temperature max 38 degrees 2. Girl 3 years, cough since 3 days, temperature 38.5, mildly short of breath, less active than usual 3. Boy almost 2 years, short of breath and fever since 1 day</i>
30 minutes	Discussion about cases, including videos <i>- What do you think? (first reaction, worries, reassuring symptoms) - How would you act as a parent? (management at home, finding information, seeking medical attention)</i>
30 minutes	Evaluation of developed material (leaflet about fever in children, videos of signs and symptoms, website about fever in children including videos of signs/symptoms) Discussion: <i>- How do you judge content and delivery of the information? - Would it help you in managing your child with fever?</i>
5 minutes	Closure
