

## Supplementary file 4. Pre and post consultation survey

# Survey information material fever in children

Previous research showed that there is a need for information material about fever in children in a range of formats. The website [www.sehzorg.nl](http://www.sehzorg.nl) and an information leaflet were developed in close collaboration with parents. This survey aims to evaluate and improve this website and leaflet. In this way we can produce information material that best suits the needs of parents. Filling out this survey takes about 5 minutes. Thank you for your participation!
