

System A. Case Reporting

Select your country -->

Definition: A functioning case reporting system routinely collects information on diagnosed disease-specific cases. This system can be used to measure the first ninety; number of people living with HIV with known status. These cases may be reported from health facilities or providers to a central level. At subnational and national levels, these data can be used to track epidemics and quantify the burden of disease in order to inform public health programs. For example, some countries may use Integrated Disease Surveillance and Response (IDSR) to track individual and aggregated newly diagnosed cases of disease.

A.1 Policy, Planning, and Legislation: case reporting of all diseases		Complete	Notes/Comments:
A.1.1 Is there an entity responsible for managing the case reporting system for all newly diagnosed cases of disease?	<input type="radio"/> No	X	
	<input type="radio"/> Yes, check all that apply:		
	<input type="checkbox"/> Ministry of Health		
	<input type="checkbox"/> National Public Health Institute		
	<input type="checkbox"/> Another entity, specify:		
A.1.2 Are there laws (or similar policies) in place mandating the reporting of newly diagnosed cases of disease? <i>If yes, please provide a soft copy.</i>	<input type="radio"/> No	X	
	<input type="radio"/> Yes		
	<input type="radio"/> Partially		
A.1.3 Has a strategic plan or other strategic document been developed? <i>If yes, please provide a soft copy.</i>	<input type="radio"/> No	X	
	<input type="radio"/> Yes		
A.1.4 Are data on newly diagnosed cases of disease being used in the country?	<input type="radio"/> No	X	
	<input type="radio"/> Yes, check all that apply:		
	<input type="checkbox"/> National program response		
	<input type="checkbox"/> Subnational program response		
	<input type="checkbox"/> National diagnostics forecasting		
	<input type="checkbox"/> Subnational diagnostics forecasting		
	<input type="checkbox"/> National burden of disease estimation		
	<input type="checkbox"/> Subnational burden of disease estimation		
<input type="checkbox"/> Other use, specify:			
A.1.5 Is there a funding source for the case reporting	<input type="radio"/> No	X	
	<input type="radio"/> Yes, specify below:		
	<input type="checkbox"/> Domestic		
	<input type="checkbox"/> Global Fund		

system?	<input type="checkbox"/> PEPFAR <input type="checkbox"/> Other bilateral, specify <input type="checkbox"/> Other multilateral, specify <input type="checkbox"/> Other private, specify	X	
A.2 Policy, Planning, and Legislation: HIV case reporting		Complete	Notes/Comments:
A.2.1 Is there an entity responsible for managing the case reporting system for HIV/AIDS?	<input type="radio"/> No <input type="radio"/> Yes, check all that apply: <input type="checkbox"/> Ministry of Health <input type="checkbox"/> National Public Health Institute <input type="checkbox"/> Another entity, specify:	X	
A.2.2 Are there laws (or similar policies) in place mandating the reporting of diagnosed cases of HIV/AIDS? <i>If yes, please provide a soft copy.</i>	<input type="radio"/> No <input type="radio"/> Yes, check all that apply: <input type="checkbox"/> The HIV-specific law/policy exists within the general communicable disease reporting policy <input type="checkbox"/> The HIV-specific law/policy exists independently of the general communicable disease reporting policy	X	
A.2.3 Has a strategic plan or other strategic document been developed for the reporting of diagnosed cases of HIV/AIDS? <i>If yes, please provide a soft copy.</i>	<input type="radio"/> No <input type="radio"/> Yes, check all that apply: <input type="checkbox"/> The HIV case reporting strategic plan exists within the strategic plan for general case reporting of communicable diseases <input type="checkbox"/> The HIV case reporting strategic plan exists independently of the strategic plan for general case reporting of communicable diseases	X	
A.2.4 Are HIV case reporting data being used in the country?	<input type="radio"/> No <input type="radio"/> Yes, check all that apply: <input type="checkbox"/> National HIV program response <input type="checkbox"/> Subnational HIV program response <input type="checkbox"/> National HIV diagnostics forecasting <input type="checkbox"/> Subnational HIV diagnostics forecasting	X	

	<input type="checkbox"/> National burden of HIV estimation <input type="checkbox"/> Subnational burden of HIV estimation <input type="checkbox"/> Other use, specify:		
A.2.5 Is there a funding source for the HIV case reporting system?	<input type="radio"/> No <input type="radio"/> Yes, specify below: <input type="checkbox"/> Domestic <input type="checkbox"/> Global Fund <input type="checkbox"/> PEPFAR <input type="checkbox"/> Other bilateral, specify <input type="checkbox"/> Other multilateral, specify <input type="checkbox"/> Other private, specify	X	
A.3 System Organization: General case reporting for all diseases		Complete	Notes/Comments:
A.3.1 What is the approximate geographic coverage of the case reporting system	<input type="radio"/> N/A <input type="radio"/> 1% - 25% <input type="radio"/> 26% - 50% <input type="radio"/> 51% - 75% <input type="radio"/> 76% - 100% If geographic coverage is above 0%, specify if: <input type="checkbox"/> Reporting is in urban areas <input type="checkbox"/> Reporting is in rural areas <input type="checkbox"/> Reporting is in both urban and rural areas	X	
A.3.2 What is the lowest level at which data are collected on newly diagnosed cases of disease?	<input type="radio"/> N/A <input type="radio"/> National <input type="radio"/> Subnational level 1 <input type="radio"/> Subnational level 2 <input type="radio"/> Subnational level 3	X	
	<input type="radio"/> N/A <input type="radio"/> No		

<p>A.3.3 Are data on newly diagnosed cases of disease linked to other systems?</p>	<input type="radio"/> Yes, check all systems that are linked: <input type="checkbox"/> Patient monitoring system <input type="checkbox"/> Laboratory information system <input type="checkbox"/> Vital statistics system <input type="checkbox"/> Other, specify: 	<p>X</p>	
<p>A.3.4 Does the private sector report newly diagnosed cases of disease using the same system?</p>	<input type="radio"/> N/A <input type="radio"/> No <input type="radio"/> Yes <input type="radio"/> Partially If yes or partially, check all that apply: <input type="checkbox"/> Private sector reports through the same paper-based system <input type="checkbox"/> Private sector reports through the same electronic system	<p>X</p>	
<p>A.3.5 Does the case reporting system use a unique identifier?</p>	<input type="radio"/> N/A <input type="radio"/> No <input type="radio"/> Yes, check all that apply: <input type="checkbox"/> The unique identifier is the National ID <input type="checkbox"/> The unique identifier is the Health ID <input type="checkbox"/> The unique identifier is system-specific <input type="checkbox"/> The unique identifier is created from client demographics (e.g. algorithm) <input type="checkbox"/> The unique identifier is linked to biometric data	<p>X</p>	
<p>A.3.6 Is an electronic system used for case reporting in any area of the country?</p>	<input type="radio"/> N/A <input type="radio"/> No <input type="radio"/> Yes, check all that apply: <input type="checkbox"/> Electronic system is in urban areas <input type="checkbox"/> Electronic system is in rural areas <input type="checkbox"/> Electronic system is in urban and rural areas	<p>X</p>	

A.3.7 What is the lowest level at which data on new cases of disease are collected through electronic systems?	<input type="radio"/> N/A	X	
	<input type="radio"/> National		
	<input type="radio"/> Subnational level 1		
	<input type="radio"/> Subnational level 2		
	<input type="radio"/> Subnational level 3		
A.3.8 What is the approximate electronic coverage of the case reporting system across all health facilities?	<input type="radio"/> N/A	X	
	<input type="radio"/> 1% - 25%		
	<input type="radio"/> 26% - 50%		
	<input type="radio"/> 51% - 75%		
	<input type="radio"/> 76% - 100%		
A.3.9 Does the electronic system capture data at the individual or aggregate level?	<input type="radio"/> N/A	X	
	<input type="radio"/> Individual		
	<input type="radio"/> Aggregate		
	<input type="radio"/> Both individual and aggregate		
A.3.10 Are security measures in place for the electronic case reporting system?	<input type="radio"/> N/A	X	
	<input type="radio"/> No		
	<input type="radio"/> Yes, check all security measures that apply:		
	<input type="checkbox"/> Physical barrier		
	<input type="checkbox"/> Software barrier		
	<input type="checkbox"/> Legal barrier		
	<input type="checkbox"/> Encryption		
	<input type="checkbox"/> Unique identifier		
A.4 System Organization: HIV case reporting		Complete	Notes/Comments:
A.4.1 What is the approximate geographic coverage of the HIV case reporting system	<input type="radio"/> N/A	X	
	<input type="radio"/> 1% - 25%		
	<input type="radio"/> 26% - 50%		
	<input type="radio"/> 51% - 75%		
	<input type="radio"/> 76% - 100%		

	<p>If geographic coverage is above 0%, specify if:</p> <input type="checkbox"/> HIV case reporting is in urban areas <input type="checkbox"/> HIV case reporting is in rural areas <input type="checkbox"/> HIV case reporting is in urban and rural areas		
A.4.2 What is the lowest level at which data are collected on newly diagnosed HIV cases?	<input type="radio"/> N/A <input type="radio"/> National <input type="radio"/> Subnational level 1 <input type="radio"/> Subnational level 2 <input type="radio"/> Subnational level 3	X	
A.4.3 Are data on newly diagnosed HIV cases linked to other systems?	<input type="radio"/> N/A <input type="radio"/> No <input type="radio"/> Yes, check all linked systems that apply: <input type="checkbox"/> Patient monitoring system <input type="checkbox"/> Laboratory information system <input type="checkbox"/> Vital statistics system <input type="checkbox"/> Other, specify:	X	
A.4.4 Does the private sector report on newly diagnosed HIV cases through this system?	<input type="radio"/> N/A <input type="radio"/> No <input type="radio"/> Yes <input type="radio"/> Partially <p>If yes or partially, check all that apply:</p> <input type="checkbox"/> Any portion of the private sector reports through the paper-based system <input type="checkbox"/> Any portion of the private sector reports through the electronic system	X	
A.4.5 Is an electronic system used for HIV case reporting in any area of the country?	<input type="radio"/> N/A <input type="radio"/> No <input type="radio"/> Yes, check all that apply: <input type="checkbox"/> Electronic system is in urban areas only	X	

	<input type="checkbox"/> Electronic system is in rural areas only <input type="checkbox"/> Electronic system is in urban and rural areas		
A.4.6 What is the lowest level at which data on new HIV cases are collected through electronic systems?	<input type="radio"/> N/A <input type="radio"/> National <input type="radio"/> Subnational level 1 <input type="radio"/> Subnational level 2 <input type="radio"/> Subnational level 3	X	
A.4.7 What is the approximate electronic coverage of the HIV case reporting system across all health facilities?	<input type="radio"/> N/A <input type="radio"/> 1% - 25% <input type="radio"/> 26% - 50% <input type="radio"/> 51% - 75% <input type="radio"/> 75% - 100%	X	
A.4.8 Does the electronic HIV case reporting system capture data at the individual or aggregate level?	<input type="radio"/> N/A <input type="radio"/> Individual <input type="radio"/> Aggregate <input type="radio"/> Both individual and aggregate	X	
A.4.9 Are security measures in place for the electronic HIV case reporting system?	<input type="radio"/> N/A <input type="radio"/> No <input type="radio"/> Yes, check all security measures that apply: <input type="checkbox"/> Physical barrier <input type="checkbox"/> Software barrier <input type="checkbox"/> Legal barrier <input type="checkbox"/> Encryption <input type="checkbox"/> Unique identifier	X
