

Supplementary Table 1. Risk groups for influenza vaccination

Risk groups for influenza vaccination
Chronic respiratory disease
Chronic heart disease
Chronic renal disease
Diabetes
Immunosuppression
Liver disease
Chronic neurological disease
Carer
Pregnancy*

*not included in the TXT4FLUJAB study for ethical reasons

Supplementary Table 2. Schedule of enrolment, interventions and assessments

Time point	Study period				
	Enrolment	Allocation	Post allocation		Closeout
	Aug 2013	Sept 2013	Sep to Dec 2013	Dec 2013	May 2014
Enrolment:					
Eligibility screen	x				
Informed consent	x				
Allocation		x			
Interventions:					
Intervention			x		
Control			x		
Assessments:					
Practices complete questionnaire				x	
Researchers extract relevant data from practice (age, sex, clinical risk group, influenza vaccination reminder types, vaccine uptake)					x
Questionnaire to patients in the substudy				x
