Dear {ed_form_first_name} {ed_form_last_name}

Re: Mobilizing early management of mental health problems after mild traumatic brain injury (M4)

You are receiving this letter because you recently visited {ed_form_site} on {ed_form_ed_visit} and were suspected to have sustained a possible concussion, and enrolled in a University of British Columbia research study and consented to be contacted by the research staff.

Vancouver Coastal Health has created a Concussion guide; a customizable guide for adults with concussion, or those wanting to learn about adult concussion. The full guide can be accessed at <https://concussion.vch.ca/>

If you have questions about the research study, you may contact the Study Coordinator at **604-734-1313 ext 2316**.
