

**A. Introductions**

- B. Aim of the discussion:** Today we would like to discuss whether and how the hospital (details of the hospital) affects the local area and its communities in terms of economic activity and to what extent this can improve people's health and reduce health inequalities.

**Details:** The discussion will last between 30 and 60/90 minutes but you are free to have a pause or withdraw at any point. Anything discussed is confidential, so you are kindly asked to not share details about the content of the discussion or the other participants with other people. The information you will share will be completely anonymised and we will make sure that there is no possibility for you to be identified at any stage of the research process.

Please share your thoughts and opinions as honestly as possible. If you wish to give examples, please do not mention anything that might be identifiable. You are kindly requested to use respectful language and make sure that everybody has the time to share their input.

**Consent for audio recording.****C. Questions**
