

Questions to help you decide if either a virtual or face-to-face appointment is best for you

NHS
Royal National
Orthopaedic Hospital
NHS Trust

NIHR National Institute
for Health Research

UNIVERSITY OF
Southampton

Could my previous treatment have been managed successfully virtually?

Am I comfortable seeing myself on a screen?

What do I need from the clinic to support me with either virtual or face-to-face care?

How would a virtual appointment affect me?

How can my problem be managed best?

What do I expect?
